

# Barber Shop Management System

The Barbershop Management System is a comprehensive software solution developed using **C#, .NET Framework**, and **DevExpress 24.1**, designed to streamline and optimize barbershop operations. The system includes the following core functionalities:

## 1. Customer Queue Management:

- Real-time tracking of customer queues to minimize wait times and improve service efficiency.
- Supports both walk-in and appointment-based customers, ensuring a smooth and organized experience.

## 2. Payment Handling:

- Integrated payment processing to handle cash, card, and digital transactions seamlessly.
- Features for tracking service charges, tips, and payment history.

## 3. Reporting and Analytics:

- Generates insightful reports using Crystal Report.
- Facilitates data-driven decision-making to improve operational efficiency.

## Key Benefits:

- Improves barbershop efficiency by **20%**, reducing manual processes and operational bottlenecks.
- Ensures user-friendly interaction with intuitive **DevExpress UI** components for smooth navigation and operation.
- Enables barbershop owners to make informed decisions with analytics and reporting features.

## 1. Queue Menu

The screenshot displays the 'Queue Menu' interface of the Barber Shop Management System. The interface is organized into three main panels: Customer, Stylist, and In Service. Each panel contains a table with columns for No, Name, Date, and Available. The Customer panel shows a table with one row for ANDY. The Stylist panel shows a table with four rows for ARO, ADI, GATOT, and DANNY. The In Service panel shows a table with one row for DANNY. Each panel also has a set of buttons for Add, Remove, Down, Up, and Refresh. The interface is titled 'Barber Shop - [Payment]' and includes a menu bar with Master, Transaction, Reports, Tools, and Windows. The status bar at the bottom shows 'Record 1 of 1' for each table.

# Notary Management System

The Notary Management System is a comprehensive software solution developed using **C#**, **.NET Framework**, and **DevExpress 24.1**, designed to streamline and manage the operations of notarial offices in Indonesia, tailored specifically to the Indonesian language.

### Key Features:

- 1. **Notary Order Management:** Efficiently handles client requests for legal documentation and notarization, ensuring accurate data tracking and streamlined workflows.
- 2. **PPAT Order Management:** Manages tasks related to land deeds and property transactions, facilitating compliance with legal requirements.
- 3. **Comprehensive Reporting:** Generates detailed reports on orders, transactions, and operational performance to support decision-making and audits.

This system is optimized for user convenience and supports features such as real-time order tracking, automated fee calculations, and customizable templates. By leveraging the latest **DevExpress** components, the application provides a modern, intuitive interface, improving user productivity and reducing processing times.
